EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a written amendment and request on 18 May 2006.

The application has been amended as follows:

Claim 4: The method of claim 1 further including the step of including the time and date of placing the order for a dedicated executable application and the time and date of downloading the dedicated executable application in the unique identification information.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Brandenburg does not teach including the unique identification code in the dedicated executable application, especially as understood in light of claim 13, in that the included unique identification code is not just used to encrypt as in Brandenburg, but can be matched with the stored Brandenburg on the particular user station.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
